

**Enter, Monitor and Manage Your
Operational Data Anytime, Anywhere**

Zedi Go the Mobile App

The mobile app built for industrial operations to increase production, profits and sustainability anytime, anywhere.

The Mobile App Built for Industrial Operations

Download and log in using your current authorized Zedi Access account

Easily monitor and manage your operations on the go

- View trends of recent performance from anywhere
- Prioritize your work based on current alarms
- Automatically push data to other systems or custom reports

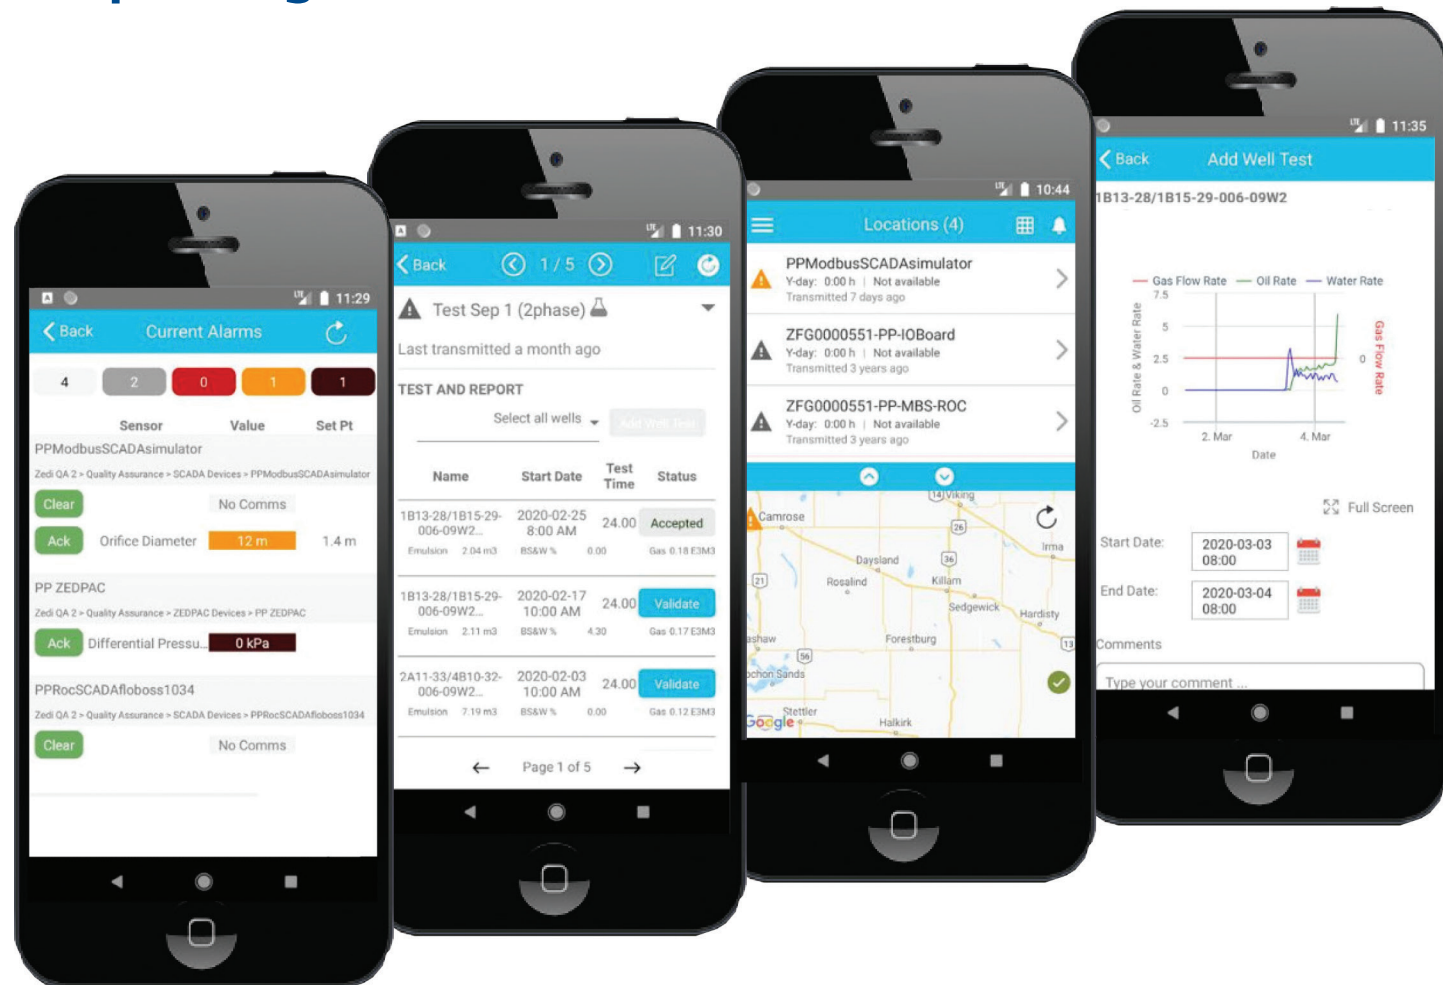

Manually input data, change settings and issue commands

- Demand poll to quickly update SCADA readings
- Save time by immediately updating systems
- Create custom mobile forms to eliminate paperwork

Simplify the work of recording chart estimates

- Enter data and update production systems in the app
- View chart estimates and actuals from Zedi TrueChart
- Capture chart estimates via your mobile device to export

Keep Go-ing... with Zedi Go

Mobile Solution for Data Entry

Our app allows you to easily view real-time performance data, analyze trend graphs, input operational data, change settings, issue commands, create customized mobile forms, and update control systems anywhere with the convenience of their smart device.

You can significantly reduce downtime, decrease production losses, save money, and time with alarms notifications.

Download our Zedi Go App through the Apple store or Google Play if you're ready to view, control, and modify production information from your mobile device.

Software as a Service

Fuel the power to unlock the most value from your data

Easily and seamlessly access current, user-friendly data for real-time, accurate decision-making production gains. Our software applications are built to ensure you always have the most up to date version, secure storage and full support.

- Unlimited users, no seat or site licenses required
- 24/7/365 customer support
- Application upgrades
- User training
- Access anytime, anywhere
- Data center
- Business continuity
- Infrastructure management
