

**Easily capture all your daily  
production data in one platform**

## **Zedi Vital**

Capture all your daily production data in one, user-friendly platform to increasing production, profits and sustainability.

## Daily production data from the field to the boardroom and everywhere in-between for complete production visibility

Easily see accurate, daily production at each asset, facility, field and across the entire organization with Zedi Vital from anywhere at anytime through our secure cloud-based platform.

Effortlessly track performance to target and quickly run variance reports. Know exactly what's causing downtime, so you can take faster and more exact action to lower downtime and increase productivity.

Customize the data entry experience using custom run orders and customized routes to match your daily workflow.

Continuous system updates to introduce new functionality based on your suggestions and input are completed automatically to all end users without any hassle or downloads.

## Collect and analyze daily operational data and replace complicated, manually created spreadsheets

Cloud-based daily operational data in one, user-friendly platform, from multiple sources with anytime, anywhere access. Reduce field to office reporting errors and save hours of manual data entry every month by eliminating complex and confusing spreadsheets.

- Advanced Reporting
- Instant access to over 100 reports
- Custom reports
- Report subscriptions
- Tableau powered analytics
- Target and track performance

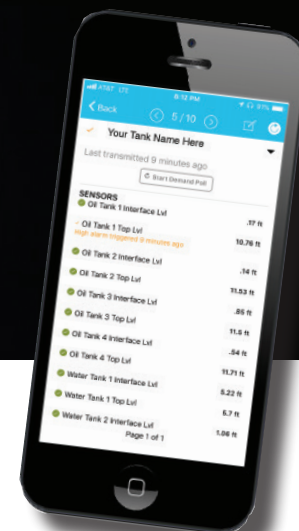

Combine different types of data sets to enable Zedi Vital to do things like balance your meter data, tank readings and truck tickets (just to name a few). You can even back allocate or prorate your measured facility level production to track downtime and utilize the detailed site note feature to increase internal communication levels.

## Our SaaS is hardware agnostic, which means you can utilize the hardware you may already own, and still get decision making data

You decide on what hardware equipment is best suited for your situation. All you do is tell us what you want for data and analytics to be reported and we'll do the rest—in just a few days. This delivers your people with the actionable insights they need to make better operating decisions quickly and efficiently.

## Monitor & control assets in the field – anytime, anywhere.

### Keep Go-ing... with Zedi Go

Easily access current production, input valuable operational data, create custom forms, instantly update systems, and directly control your field devices through an app designed specifically for industrial challenges.

## Software as a Service

### Fuel the power to unlock the most value from your data

Easily and seamlessly access current, user-friendly data for real-time, accurate decision-making operational gains. Our software applications are built for tough industrial challenges and are delivered as a service to ensure you always have the most current version, secure storage and full support.

Increase profitability and operational excellence with our SaaS SCADA for better performing assets, streamlined compliance, and optimized resources.

- Unlimited users, no seat or site licenses required
- 24/7/365 customer support
- Application upgrades
- User training
- Access anytime, anywhere
- Data center
- Business continuity
- Infrastructure management
